ROAD AGENT'S REPORT

My road work each year is mostly along the same line so not much of anything different to report.

The road machine work as usual. We put in twenty metal culvert pipes this year. The pipes alone cost \$686.27.

We went over all the roads with the tractor mower in eight days. It cost \$12.00 for an eight hour day for the mower without the driver. This keeps bushes cut back much cheaper than it could be done by hand.

We replanked several bridges as you will see by the amount of plank bought.

The heavy wind and rain storm in Nov. did quite a lot of damage. The washout near Kenneth Dimick's cost \$160.00 including one new culvert. The washout on Dorchester road cost \$186.00. It took 182 yds. gravel on hill by Kenneth Dimick's and 170 yds. on Dorchester road. This I think was mostly what caused us to go over appropriation a little.

T. R. A.

This work was done by N. H. Highway Dep't. this year. I think very near same amount was spent as last year which was about \$4,000.00.

CHESTER D. PIKE,

Road Agent

REPORT OF THE LIBRARIAN

Books and more books continue to interest people of all ages and especially the children. George Buzzell was the winner of the "Adventures in Reading Contest."

We have been fortunate in having many interesting and useful books given to the library this year. Mrs. Lois Maloy sent a gift of twenty books for the primary and intermediate grades. Other gifts of books were received from Mrs. Park, Mrs. Shriever, Mrs. Maude Warren Gibbs, Miss Gaylord, Miss Bray and Mr. Lailer.

Many fine books have been added to our collection by the State Aid fund. The books were awarded to the Lyme Library for increased service of books to the children of all the schools in town. Much credit goes to Mrs. Sessler in her untiring efforts to secure the needed credits to standardize the library to secure the needed credits necessary to entitle the library to State Aid.

The new Encyclopedia is in great demand. Books are paths that upward lead. Books are friends. Come let us read. We have books to interest everybody.

Respectfully submitted,

MRS. R. A. MILES

School District of Lyme

To the Inhabitants of the School District of Lyme qualified to vote in District Affairs:

You are hereby notified to meet at the Church Hall on the thirteenth day of March, 1951, at 1:30 p.m. to act upon the following subjects:

1. To choose a Moderator for the ensuing year.
2. To choose a Clerk for the ensuing year.
3. To choose a member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To hear the reports of Agents, Auditors, Committees, or other officers heretofore chosen, and pass any vote relating thereto.
6. To choose Agents, Auditors, Committees in relation to any subject embraced in this Warrant.
7. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.
8. To transact any other business that may legally come before this meeting.

Given under our hands and seals at said Lyme this
13th day of February, A. D., 1951.

ANNUAL REPORT OF THE SUPERINTENDENT

To the School Board and Citizens of Lyme,

I hereby submit my third annual report as your
Superintendent of Schools.

As events slowly move us toward the apparent possibility of world-wide conflict, we are attempting to provide the children with a calm and peaceful environment and at the same time prepare them for total mobilization. These appear to be divergent aims, but we are accomplishing them with a reasonable degree of success. The regular program of the pupils proceeds with very little change and no overdue emphasis is placed upon the war news. At the same time we are instituting a war saving program similar to the one in operation during World War II. There is increased emphasis upon health and general physical well-being. At the request of the State Board of Education and Civilian Defense, all teachers are being trained in First Aid. Later, all pupils will be given First Aid Training commensurate with their ability to understand it. It is my own personal opinion that, under existing circumstances, our children should be provided with a school environment which is happy and enjoyable so that they can lead a reasonably normal existence for the few remaining years that it will be possible for them to do so. Yet, at the same time, we cannot entirely ignore the consideration of facts dealing with what is actually going on in the world today.

TEACHERS AND PUPILS

The teachers in Lyme are constantly striving to do a better job. They meet at regular intervals after school to discuss their problems and consider ways of improving their techniques. Along with other teachers in this Supervisory Union they have given special study to the problem of arithmetic. All the principals in the Union agreed that one of the real problems before us was the methods used and the program of the seventh and eighth grades. For this reason, several meetings have been devoted to these topics with the hope that we can reach some workable solutions.

I am a little disturbed because so many of the Lyme pupils drop out of high school during their freshman or sophomore year and presumably do not continue their education. There are, undoubtedly, many reasons why this is so as has been proven by several investigations that have been conducted by the principals at Hanover and Orford. Two facts, however, seem to stand out and these are the lack of a desire to continue and the failure to understand the value of a high school education. A high school education is a basic minimum requirement for most occupations in today's world. If any parents are worried about their own high school children, I will be glad to talk over the situation with them.

The teacher shortage which has been in existence for the past two years will probably be exaggerated as more and more teachers are drawn off into war work and the draft. We should do everything possible to retain those capable teachers now on our staff.

BUILDINGS AND REPAIRS

Plain: New fluorescent lights have been partly installed in all the rooms. Those who have seen the comparison between the old incandescent lamps and these new ones have remarked on how much better the fluorescent lights were. The water pump gave out completely this fall and had to be replaced with a new one. A door closer has been installed on the front door and fire exit bolts have been ordered. The oval in front of the building has been seeded and rolled. The children were given special commendations for planting a flower garden on either side of the front porch. The land at the rear of

the building has been purchased, according to the vote taken at the last school district meeting, and has been fenced off. A few new desks and chairs were purchased. We need to purchase many more of these both for this and the other buildings as many of the desks are in poor shape.

Center: The rooms were given a new coat of light paint which did a lot to improve their appearance. The children in Mrs. Emery's room did this work themselves. New black curtains have been installed in one room so that motion pictures may be shown more easily.

Chesley: The inside was given a coat of light paint.

GENERAL

By special arrangements with the State Highway Department, we now have special "School Children" signs placed in the roads in front of the Plain School during the time that children are going to and coming from school. This should serve to make motorists more cautious and possibly avert a serious accident.

The school is indebted to Mr. Pond for the gift of a mimeograph machine. With this notices, outlines and special material can be run off more easily. This and similar equipment assist us in producing a better education for boys and girls.

The Lyme P. T. A. has worked hard to improve the local schools. They have given \$50.00 each year to assist in the renting of motion picture films. Through their efforts a remedial teacher has been helping the children who have been finding some difficulties with their reading and speech. Last spring, the P. T. A. paid the expenses of a state dental hygienist while she stayed in Lyme to clean the childrens' teeth and give them flourine treatments. These people deserve a vote of praise for the constructive work they have done in addition to the excellent programs they have put on for parents.

In conclusion I would like to take this opportunity to thank the parents, school board, teachers, janitors, P. T. A., pupils and others who have assisted in producing good schools for Lyme.

Respectfully submitted,

HOWARD F. MASON
